The Crystal Skulls of the Maya & Atlantis, and the Prophecies for the 2012 'Time of Awakening' *with Raymond Tarpey*

Saturday, April 30, 2011

According to the testimony of **Edgar Cayce**, the Mayan Culture was formed in the spirit-resonance of the 'Red Lands' of Atlantis and the Americas.

The spiritual legacy of Atlantis lies within the Sacred Calendar of the Maya and their 'Legend of the 13 Crystal Skulls'.

Raymond's study of the ancient Mayan Records and the Crystal Skulls has clarified the 2012 spiritual revelation for the 'Followers of the One' in the American lands.

Raymond invites you to join him in exploring the key signs and changes coming as the 'Revelation of the Crystal Skulls' unfolds in this 2012 'Time of Awakening'

The Association for Research and Enlightenment (A.R.E.), founded in 1931, is an international non-profit, nonsectarian membership organization. Its mission is to help people change their lives for the better through the understanding and application of spiritual concepts. All of the team members who plan and implement our programs are volunteers. If you are interested in more information about A.R.E. or in serving in any capacity, please contact Keith at 253-839-9594

The A.R.E. Today in the Northwest

by the Puget Sound Area Team

Keith Grinnell reporting

Dear Friends of the A.R.E.

The spiritual message of the Edgar Cayce readings inspires thousands of people around the world to seek a closer union with our Creator/God today and for many years past.

Mr. Cayce left us in the early 50’s but his message is as powerful as ever today, as it helps to transform the lives of seekers.

You may have noticed in the last few years that activity has dropped of to very low levels. This has been caused by many factors such as the deep recession currently gripping our country, as well as the major restructuring of field operations in the ARE not only in our Northwest Region, but also all over the country. As most of you know, the Pacific Northwest Region, which was formed about 1993, no longer exists. It has been quite a trip but well worth the energy expended by many of us. For me it was not only an opportunity to get involved in something bigger than myself but also an opportunity to learn how to work cooperatively with others with a similar commitment.

In the new field structure the four Area Teams in the old Region now report through the California Region for financial reporting but for all practical purposes each is independent. The four teams are working together to build the A.R.E. community just as in the past. The Teams are this one, the Puget Sound Area Team, the Northwest Team located near Anacortes, the Tri-Cities in Eastern WA, and the Portland team. We welcome anyone that would like a closer fellowship with some of the workers in this service to check our web site for additional contact information. The Teams are a perfect means of personal growth.

Our Vision for the future is guided by the Holy Spirit and the dedication of all our Area Team members. This Vision is still growing as we reorganize after the major changes that have taken place, We took a little rest and now are again engaged in planning ahead to find new ways to serve people that are seeking a better way forward in life. We don't have all the answers but we are trying. We are wanting to improve the Spiritual growth Study Group program which consists of many small groups of like minded people, usually no more than six or seven, that meet weekly or monthly to study the specially developed material by Edgar Cayce for personal Spiritual Growth. Older groups often meet to study and discuss related materials. Each group is independent and seeks it's own way to advance their understanding of the mysteries of life.

If question arise feel free to contact me..

In Service to you,

Keith Grinnell – Puget Sound Area Team leader.

Editor's note

By

Gordon Yumibe

Hello everyone, it's been too long since we last met here. There seems to be many reasons for this dry spell, some note worthy and others, just another important aspect of our joint efforts of making a journey together. I'm hoping this season of our lives can help instill some new hope and direction forward.

Ever since our NW Area Team decided to cancel the Spring Seabeck event, I've been floundering a bit. Spring Seabeck meant a great deal me and maybe many others of our membership as well. It meant a yearly renewal, of seeing each other again; a fellowship that has been hard to replace.

I have also been pre-occupied with my son's wedding in New York City. That is now over and things went really well. My trip involved making travel arrangements for my eighty-eight year old mom and myself, a toast, and other things I never done...

Well, I started feeling inspired again and where we are going as a group, an organization that help us mover forward in a spiritual way. There is an aging process that has something to do with our collective energies here. Many in our organization have been members for a long while. I have had concerns about what will be remaining. I personally have grown into someone I had no idea was there, and much of it has been through my own associations with the local and larger ARE organization. Edgar Cayce's words are eternal. Let us be a light onto our world for others to find some of the same things that we all have.

I'd like this newsletter to become a sounding board for your own ideas about where and how we want to move forward. If there are others feeling uncertain like I have been; what inspires you and gets you moving forward again? Let me know and I will certainly try and help share them here. There's a phrase that came to mind as I am writing this..."know that you are loved."

I'm hoping this will help create a rippling effect....

Community Corner

Note:

This is a space meant for member sharing of whatever whimsical or serious thoughts cross your minds. It could be a new recipe, a new health remedy, or any what-not you'd like to share with our fellow members. This is our newsletter that might help bridge some of the distance and build upon our collective feelings of community in this larger world that we inhabit.

Study groups

Darsi Bucher has stepped down as Study Group Coordinator after several years. I thought it was timely for me and thought I'd like to step into that role here in the upper Northwest Area. I'm not altogether sure what my responsibilities are. I've contacted Virginia Beach to see if they would be able to address some of my concerns. As some of you already know I've been busy trying to contact each one of you (study groups) in person or by telephone. I have found that some of the groups are no longer functioning as such but it's been a delight talking to each one of you. I will be continuing to see what my role actually will be at this point but I have been encouraged too see that the interest level is still sincere and dedicated. I am grateful for this opportunity to share what I do and know. Thank you much!

Blessings!

Gordon Yumibe

I am hoping that I will have an updated list of all the groups here in Washington, Idaho, Montana, Alaska, and Oregon at some point....British Columbia, too...hello Judith Munns!
